Efficiency meets comfort – Welltherm infrared heaters with new *pre*con® plug-in concept.

welltherm®
España

Our Welltherm infrared heaters naturally meet all requirements of the latest version of the Ecodesign Directive (2024/1103). This means we not only guarantee maximum energy efficiency and sustainability, but also future-proof heating comfort – "Made in Germany."
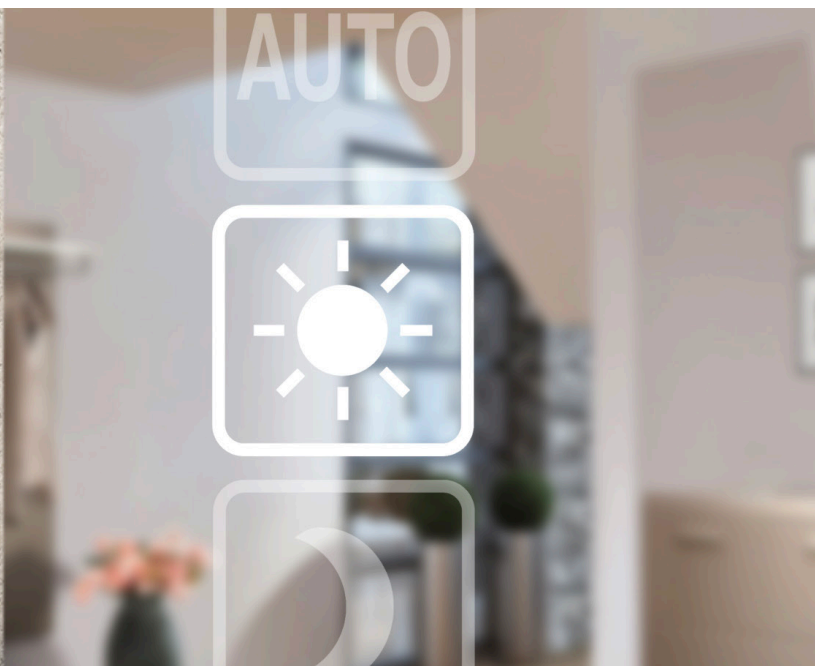

To combine this requirement with maximum installation convenience, we are now relying on our innovative precon plug-in concept. This intelligent system ensures that our heaters can only be operated in combination with a suitable control system – in line with eco-design requirements.

At the same time, precon offers a significantly simplified and time-saving installation process: plug in, connect, done. This means you benefit from quick, safe installation— and end customers benefit from an efficient heating system that is ready for immediate use.

Welltherm – Efficient. Comfortable. Future-proof.

*pre*con®

lot20 conform · Ökodesign-Richtlinie (EU) 2024/1103

Product information Control elements "DE series" with *pre*con® plug-in system for compliance with Ecodesign Regulation 2024/1103.

Standard delivery condition:

Our infrared heating systems are supplied with our innovative precon plug-in system. (Pre-assembled 650 mm connection cable and mounted 3-pin GST15i3 plug)
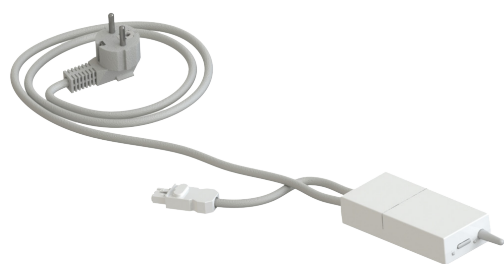

*pre*con®

Control elements "DE series"

Item No.: DE00000
Premium wireless thermostat DE

Item No.: DE00010
surface-mounted receiver DE

Item No.: DE00010-01
Surface-mounted receiver DE assembled
Output 1: 500 mm cable and GST15i3 socket installed
Output 2: Open for direct connection

Item No.: DE00010-11
Surface-mounted receiver DE assembled
Output 1: 500 mm cable and GST15i3 socket assembled
Output 2: 1800 mm cable with molded Schuko plug assembled.

Item No.: KA0006-GST
500 mm long connection cable.
Side 1: 3-pin GST15i3 socket.
Side 2: stripped cable ends (for connection to the receiver)

Item No.: KA0009-GST
1800 mm long connection cable.
Side 1: 3-pin GST15i3 socket
Side 2: Molded Schuko plug

Control elements "SA series"

*pre*con®

Item No.: SA00050
Wireless thermostat set SA
Wireless thermostat and surface-mounted receiver SA00010

Item No.: SA00050-01
Wireless thermostat set SA
Wireless thermostat and surface-mounted receiver SA00010-01
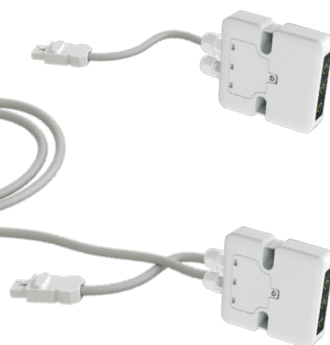

Item No.: SA00050-11
Wireless thermostat set SA
Wireless thermostat and surface-mounted receiver SA00010-11

Item No.: SA00010
Surface-mounted receiver SA

Item No.: SA00010-01
Surface-mounted receiver SA assembled
Output 1: 500 mm cable and GST15i3 socket installed
Output 2: Open for direct connection

Item No.: SA00010-11
Surface-mounted receiver SA assembled
Output 1: 500 mm cable and GST15i3 socket assembled
Output 2: 1800 mm cable with molded Schuko plug assembled.

Item No.: SA00020
Table display
